Skills :

- HTML5 – CSS – javaScript - TypeScript

JS Frame work :

- Vue-js & Nuxt3
- React & React-Native & Next-js

CSS frame work :

- Boot Strap - Tailwend

Backend and database

- Node Express
- Postegre SQL & prisma
- Mongo DB

Deployment & Server Configuration

- **Server & VPS Administration**
- Docker & Container Management
- Mail & Proxy Server Configuration
- Infrastructure & DevOps Operations

ALI EMAD HASAN

Full Stack developer

Professional Summary:

Full Stack Developer with 7 years of experience specializing in building scalable, high-performance web applications using React, Next.js, and TypeScript on the frontend, and Node.js, Express.js, and NestJS on the backend. Proficient in working with both MongoDB and PostgreSQL databases, leveraging Prisma ORM for efficient data management, with hands-on experience in VPS administration, Docker containerization, deployment, and server-level mail and proxy configuration. Skilled in designing responsive and modern user interfaces using Tailwind CSS and Bootstrap, with strong expertise in API design, state management, performance optimization, and DevOps-oriented workflows. Passionate about crafting seamless, maintainable, and secure full-stack solutions while staying aligned with modern development standards and best practices.

Work Experience

AWA Cyber – Remote (2023 – Present)

- Developing and maintaining web applications using Next.js, React, and TypeScript.
- Collaborating with backend teams to integrate APIs and ensure seamless data flow.
- Optimizing application performance and implementing best UI/UX practices.
- Utilizing Tailwind CSS and Bootstrap to create modern, responsive designs.

Nirva – Tartous, Syria (2020 – 2023)

- Led the development of various front-end projects using Vue.js, Nuxt.js, and React.
- Worked closely with designers and backend developers to create scalable applications.
- Implemented state management systems (Redux, Vuex) for efficient data handling.
- Enhanced website performance and accessibility for better user experience.

Dr. Social – Tartous, Syria (2018 – 2020)

- Designed and developed web interfaces using React.js and JavaScript.
- Integrated RESTful APIs and improved front-end architecture.
- Ensured cross-browser compatibility and responsive design.
- Collaborated with teams to build interactive and engaging web applications.

Education

Bachelor's Degree in Information Technology (Ongoing)
Syrian Virtual University – Remote

- Currently pursuing a degree in Information Technology, focusing on software development, databases, and system architecture.

Vocational High School Diploma in Computer Technology (2012)
